TEN PER CENT RAISE

Granted to All the Employes of the Reading Company's Mines.

DEALS DIRECTLY WITH ITS MEN.

Operators Will Not Recede From Their Position of Refusing to Recognize the Union. The Outcome.

Hazleton, Pa., Oct. 1.—The posting by the Philadelphia and Reading Coal and Iron company of a notice granting an increase of 10 per cent to all the employes of its collieries in the Schuylkill valley did not cause any apparent commotion at the headquarters of the United Mine Workers here. President Mitchell did not express the least surprise. He refused to discuss the advance, but it is understood that he knew the 10 per cent increase would be made and was anxious to see in what manner the information would be conveyed to the men.

The action of the Reading company indirectly notifying its men through posters indicates that the operators will not recede from their position of refusing to recognize the union. What President Mitchell's first move will be in view of this new phase of the situation is not known. "The operators are evidently not taking me into consideration," he said, "but they will wish they had."

Discussing the question of a compromise, the national president said it would depend upon circumstances whether a compromise would be considered. When asked if the amount of the increase would be one of the circumstances, he said it would be a consideration.

There is considerable talk that the posting of the notices will cause a break in the strikers' ranks. It is predicted that if this does happen it would mean the end of the strike in a very short time. The labor leaders again reiterated that there will be no break, and that the strikers are under perfect control. President Mitchell said he did not order the mine workers' notice to be placed along with that of the Reading company, but he thought it was done as a result of his warning to the strikers last week to the effect that they should not go back to work until ordered to do so by the union officials. The strikers, he said, probably chose the poster scheme as one of the methods of keeping the men in line.

Await Mitchell's Orders.

Shenandoah, Pa., Oct. 1.—The notices of the Philadelphia and Reading Coal and Iron company offering miners an increase of 10 per cent in wages, were posted in this town, at Mahanoy City and other places. Upon reading the notice Organizer George Harris, whose headquarters are at Mahanoy City, issued instructions to the presidents of local branches of the United Mine Workers to warn the strikers against returning to work until so ordered by the officials of the union. Placards were accordingly tacked up throughout the district notifying the mine workers to remain away from the collieries until President Mitchell should order them to work or until the local branches of the union should take concerted action.

Not So Favorable.

Wilkesbarre, Pa., Oct. 1.—A prominent coal operator who is in touch with the negotiations now going on looking to a settlement of the miners' strike said that on Saturday night it looked very favorable for a settlement, but it does not look so favorable now. The activity of the United Mine Workers in the Schuylkill region has half way put a damper on the negotiations. The committee of operators here learn that more strenuous efforts are being put forth by the United Mine Workers to bring men out in the Schuylkill region than at any time since the strike began.

Notice Discussed.

Shenandoah, Pa., Oct. 1.—At meetings of mine workers held in various sections of this district the Reading company's notice was discussed. The meeting of the foreign employes in this town was addressed by C. S. Pottler, president of the Polish branch of the United Mine Workers here, and a national organizer. After the meeting Mr. Pottler said the strikers in this vicinity were unanimous in their intention to abide by the instructions of the national board of the United Mine Workers.

Advance Offered.

Shamokin, Pa., Oct. 1.—Notices were posted here by the Philadelphia and Reading Coal and Iron company to the effect that beginning today an advance of 10 per cent on the net wages of all men and boys would obtain. While some strikers said they were ready to go to work, others hold that it would

not be wise to act until President Mitchell had issued official notice as to the course the men should pursue.

No Coal Shipment.

Reading, Pa., Oct. 1.—For the first time in years, practically no coal came over the Reading railway for tidewater. Everything at the mines was cleaned up. The company is preparing for extraordinary heavy shipments of the bituminous from West Virginia to tidewater.

TWO MORE DEAD

As a Result of the Shooting Between Union and Nonunion Molders.

Cleveland, Oct. 1.—As a result of the shooting affray between union and nonunion molders two more men are dead. They are Henry Cronenberger and William Steffeld. Cronenberger was a union molder. Steffeld was a bricklayer and had no part in the fight. Charles Peek, a nonunion man, is under arrest, charged with the murder of Detective William L. Fouks, who was shot through the heart. Paul Irving, Thomas Jennings, Edgar McIntyre and Willis Webster, also nonunion men, were arrested on the charge of shooting with intent to kill.

To Plead For the Boers.

New York, Oct. 1.—Colonel Arthur Lynch, formerly in command of the Second Irish brigade in the Boer army, arrived here from Europe. Colonel Lynch resided in Paris and he returned there after the Irish brigade in the Transvaal was disbanded. He said: "I will lecture here to set the Boers right before the people of this country. I will stay until after election. I hope and expect that President Kruger will come to this country, and that he will make a great impression on the American people and that they will see that the grand old leader of South Africa, so scoffed at and maligned by the English press, is not only one of the grandest figures of our time, but is also one of the most advanced."

Fire In a Ship.

New Orleans, Oct. 1.—Fire broke out in the third hatch of the big steamer American, Captain Daniels. There were stored in the compartment 35,000 bushels of wheat, many oak logs and 2,000 bales of cotton. Eight engines pumped water into the ship several hours and the damage by water was heavy. The American belongs to the West Indian line and is one of the largest freight carriers coming to this port. The vessel runs between New Orleans and Liverpool.

Weekly Bank Statement.

New York, Oct. 1.—The weekly bank statement of averages of the associated banks show: Loans \$817,472,000, decreased \$5,668,400; deposits \$884,706,800, decreased \$12,764,700; circulation \$29,865,700, increase \$203,300; legal tenders \$64,962,900, decreased \$2,158,500; specie \$169,156,400, decreased \$4,642,400; reserve \$234,119,300, decrease \$6,800,900; reserve required \$221,176,700, decreased \$3,191,175; surplus \$12,942,600, decreased \$3,609,725.

Chicago Firm Fails.

Chicago, Oct. 1.—The suspension of U. G. Peters & Co., dealers in stocks and bonds, was announced on the stock exchange. Mr. Peters was not at his office to give out a statement, but other brokers put the liabilities at \$1,000 to \$10,000. The failure is said to be due largely to the recent withdrawal from the firm of Charles Hendroin who held the New York stock exchange membership of the firm.

In Financial Straits.

Lima, Peru, Oct. 1.—There is much excitement here over the fact that one of the Paris houses, owned by Minister of Finance Velaunde, drew for about 500,000 francs to be used in part payment for arms purchased in Belgium, has failed to meet the first bill due and cannot meet the others maturing Sept. 28. The ministers of finance and war have resigned their portfolios and the cabinet is still incomplete.

London's New Lord Mayor.

London, Oct. 1.—Alderman Frank Green was formally elected lord mayor of London for the ensuing year. Mr. Green is a native of Maidstone, Kent, and is a paper merchant. His wife, a daughter of Joseph Haydn, author of "The Dictionary of Dates," died last winter, so the duties of lady mayress will be undertaken by Mr. Green's daughter.

Rice Wasn't Murdered.

New York, Oct. 1.—Captain McClusky of the detective bureau says that though the Rice case is still under investigation, only one thing had been determined so far as his inquiry was concerned, that it apparently was not a murder.

Japanese Cabinet.

Yokohama, Oct. 1.—The mikado has summoned Marquis Ito to form a cabinet, on the resignation of the Yamagata ministry.

RUSSIANS QUIT PEKING.

Legation and the Bulk of the Troops Now Quartered at Tien Tsin.

SMALL FORCE LEFT AT THE CAPITAL.

Statement Issued That All the Powers Are Adopting the Same Policy. Developments in the Chinese Situation.

Shanghai, Oct. 1.—At a conference of generals at Peking the Russian commander, General Linovitch, announced the immediate withdrawal from Peking of the bulk of the Russian troops. He left on Thursday, Sept. 27, and the legation followed on Saturday. There will remain a mixed force of about 2,000 to represent Russia.

General Linovitch asserted that the dispatch from St. Petersburg transmitting the order to withdraw contained a statement that all the powers were adopting the same policy. The other general replied that they had received no orders of that nature.

German and Japanese columns are operating to the southward near the imperial deer park. Sir Alfred Gaselee, the British commander, has gone to Tien Tsin to inspect the British troops there.

Friction between the British and Russians over the railway continues, each party seizing and guarding small sections. The repairing is unsystematic and the completion of the work very indefinite.

Americans to Withdraw.

Shanghai, Oct. 1.—Orders from Washington directing the withdrawal of the bulk of the American troops were received on Sunday, and preparations to comply were begun immediately. General Chaffee is at Tien Tsin directing the movement, which will commence at the earliest possible moment. It is understood that the plan contemplated leaving a regiment of infantry, a squadron of cavalry and a battery of artillery in Peking to protect American interests, and that the remainder of the troops will proceed to Manilla.

Rockhill's Movements.

Peking, Sept. 27.—(Delayed.)—Mr. William Woodville Rockhill, special commissioner of the United States, left Peking with a cavalry escort for Tien Tsin. He will visit Nanking and the Yang Tse valley, examine affairs there and advise the viceroys to memorialize the throne, urging the return of the court to Peking.

Russians Leave.

St. Petersburg, Oct. 1.—The following dispatch, dated Peking, Sept. 27, has been received from M. De Giers, Russian minister to China: "In accordance with orders from the highest quarters, I am leaving for Tien Tsin with the whole legation."

Worsted Combination Financed.

New York, Oct. 1.—It is reported that the worsted consolidation, which was among the many deals taken up last year but abandoned, is again on foot. S. Walker Jones, the leading spirit in the movement, has received a cablegram from his representative in London in effect that arrangements have been made for the funds and that the organization of the worsted company was now assured. When the consolidation was undertaken a year ago, a capitalization of \$63,000,000 was proposed.

Bank Insolvent.

Charleston, W. Va., Oct. 1.—A receiver has been appointed for the Montgomery Banking and Trust company of Montgomery, W. Va., on the application of President Champe and Vice President Simras, who allege that Cashier McCormick misappropriated funds in making the bank insolvent. Liabilities \$50,000, assets \$15,000, of which only \$1,500 is cash. Missing notes and securities amount to \$62,000.

Big Blaze, Little Loss.

New York, Oct. 1.—Fire in the works of the Central Gas Light company burned about an hour before the fire department got it under control. Property loss not heavy and no one was hurt. The fire was caused by explosion of a can of oil and at times the flames shot up 70 feet high.

Not Authorized to Collect.

Lacrosse, Wis., Oct. 1.—Tim Murray, a young man charged with victimizing several local politicians by representing himself as a collector for national committees, pleaded guilty to obtaining money under false pretenses and was sentenced to one year in state prison.

Plague's Ravages.

Glasgow, Oct. 1.—Two more deaths from bubonic plague have been reported. One victim was a child born of a woman suffering from the disease.

FILIPINOS' SIDE

To Be Told to the American People by a Distinguished Native.

New York, Oct. 1.—Sexto Lopez, formerly secretary and confidant of General Aguinaldo, arrived here on the Campana. Lopez is said to have come here at the invitation of Fiske Warren and he expects to explain to the people the Filipinos' side of their fight with this country. Said he:

"My object in visiting the United States is not to interfere in American politics, but solely to tell the American people what the Filipinos desire in reference to the future government of our country. It has been said that my coming to America is in the interests of certain persons and parties. We, as Filipinos, know no parties in the United States. We have only one desire, viz: to seek justice for our country. Those who desire to give us justice will no doubt be glad to know the wants and conditions of the Philippines. All we want is peace with honor to both parties, and I hope to be able to show that the conditions of our country are such as to fit us for the maintenance of independence."

Mr. Warren, Lopez and his secretary left in the afternoon for Boston.

Week in the Philippines.

Manilla, Oct. 1.—The Filipinos in the vicinity of Manilla have been more quiet of late, although last Wednesday night there were brisk attacks at Las Pinas and Paraque, south of Manilla, as well as outpost firing at Imus, Bacoor and Muntin Lupa. The American officers are satisfied that the alleged amigos living in and around the towns in question participated in these attacks. Official reports have been received of insurgent activity in Zamboales province and in Batangas province. Two skirmishes occurred during the week on the Ilocos river, in the province of South Camarines. It is estimated that the insurgents lost 50 killed in the various districts.

Picked Up at Sea.

New York, Oct. 1.—The British tramp steamer Glengoit, which arrived from Alexandria, Egypt, and other ports in Mediterranean, brought into port 29 shipwrecked seamen, taken from the British ship Nonpareil on Sept. 22. Their vessel foundered shortly after they abandoned her. Captain Hatfield, on his arrival here, reported that his ship, the Nonpareil, sailed from New York Sept. 10, bound for Sourabaya, Java, with a full cargo of case oil. Two days later she was wrecked by a hurricane. The wreck was sighted by the Glengoit and a rescue of the crew effected under trying circumstances.

Greeks at Church.

New York, Oct. 1.—Commander Paul Countouriotis, 12 officers and 125 men of the Greek training ship Navarcho, sailed, now anchored in this port, attended mass in the Greek church. The little church was crowded to the doors and there was hardly room for the seamen when they arrived. Commander Countouriotis and his officers were in undress uniform. The mass was celebrated by Father Agathodoras, who, in the course of his sermon, bade welcome to the visiting seamen. The Greek consuls stationed at New York, Boston and St. Louis were also in attendance.

From the North.

Port Townsend, Wash., Oct. 1.—Two steamships, the Oregon and the Portland, have arrived from Nome. The former had 462 passengers and the latter 88 passengers, two boxes of bullion and a partial cargo of Arctic furs. According to the records of the quarantine officers, 2,000 people have arrived from Alaska and have been inspected here during the past four days. Smuggling across the British Columbia line into the United States has been carried on extensively of late.

Trial of Youtsey.

Frankfort, Ky., Oct. 1.—The prosecution will announce themselves ready for trial in the case of Henry Youtsey, which will be called at Georgetown during the day. None of the representatives of the defense could be seen, but it is believed the defense will be ready. The attorneys for the defense have sent interrogatories to Indianapolis to be answered by Ex-Governor W. S. Taylor and ex-Secretary of State Charles Finley, to be used as evidence for Youtsey.

Washington, Oct. 1.—In anticipation of the assembling of congress two months hence, Oct. 1 has been set as the time for receiving the annual reports from the naval bureau chiefs outlining the naval work to be done during the coming year. Most of the estimates are now completed and in the hands of Secretary Long and the more detailed representatives will go within the next few days. Until they have been gone over by the secretary no authentic details are available.

LOOK GOOD TO HANNA

Do Republican Prospects at This Time in the Empire State.

REITERATES THE CROKER MATTER.

Says the New Yorker Will Control Patronage in That State in the Event of Bryan's Election—Political.

Cleveland, Oct. 1.—Senator Hanna arrived home from New York and left later for Chicago. It is his purpose to return to New York about the middle of October, but he expects to be in Chicago the closing week of the campaign. In an interview Senator Hanna said he was pleased with the outlook in New York, where things are looking better than a month ago. Referring to his recent interview in this city in which he was quoted as saying Mr. Bryan had promised to let Richard Croker name one of the members of his cabinet, if elected, Senator Hanna said: "I have never denied that interview. In fact, what I said about Croker and a cabinet position has been substantiated during the past week. I know that Bryan has promised to let Croker distribute the federal patronage in New York, and if Bryan is elected Croker can put former Senator Edward Murphy in Bryan's cabinet."

Roosevelt's Assaults Rebuked.

Victor, Colo., Oct. 1.—The Teller county Democratic convention and the Democratic club of Victor adopted the following resolutions unanimously: "Whereas, Governor Roosevelt and party were not received in Victor with the tolerance and courtesy due to the governor of a sister state; therefore Resolved, that we, the Democrats of Victor, in convention assembled, condemn the spirit of intolerance and discourtesy exhibited on that occasion and disavow all responsibility for the disturbance of the speakers in a public hall and for the subsequent violence indulged in by members of the Republican marching club; further, Resolved, that we also deplore the folly that induced the Republicans of Colorado to provoke disorder by bringing Governor Roosevelt to this city under the auspices of the cordially detested traitor and renegade, Senator Edward O. Wolcott."

Democratic Clubs.

Indianapolis, Oct. 1.—Lewis G. Stevenson, western representative of the National Association of Democratic Clubs, and National Secretary Ihmsen have arrived for the national convention this week. The first session will be held Wednesday morning in Tomlinson hall, and three sessions a day will be held, the closing meeting to be held Thursday night. Wednesday night will occur the parade, in which it is estimated 20,000 men will march. Estimates on the crowd are as high as 50,000. National President Hearst will arrive tonight. The following speakers have notified the committee that they will be here: William J. Bryan, Adlai E. Stevenson, Bourke Cockran, Sigmond Zeisler, Dr. Senner, Patrick O'Ferrall, William Sulzer, James K. Jones, chairman of the Democratic national committee, and others.

Bryan in Minnesota.

Duluth, Oct. 1.—Colonel Bryan spent Sunday as a guest of State Senator Baldwin, an old classmate at college. He attended divine service at the Pilgrim Congregational church and listened to a sermon by Rev. Alexander Milne, the pastor of the church. At West Superior, across the St. Louis river in Wisconsin, he made the first speech of the day. After that speech he spoke in this city and West Duluth. The other points at which speeches are to be made during the day are all in Minnesota and are as follows: Carlton, Hinkley, Pine City, Rush City, North Branch, Stillwater, White Bear, St. Paul and Minneapolis. The two last places will be visited at night.

Corbett Returns.

New York, Oct. 1.—James J. Corbett, at one time champion of the prize ring, returned from Europe on the Campana. The only one who met him at quarantine was his legal representative, Emanuel Friend, and he and the fighter held a conference while the ship was dropping her way back to her dock through the fog. As he was leaving the pier, Mr. Corbett said hurriedly to the reporters: "I have come back to meet any charges which may be made against me. That is all I have got to say, and that is all I am going to say."

Washington, Oct. 1.—The quarterly statement of the commissioner of navigation shows that 308 vessels of 88,790 gross tons were built in the United States and officially numbered during the quarter ending Sept. 30.

WHAT PINGREE SAYS OF THE RE-PUBLICAN PARTY.

"There should be a general cleaning out of the gang that has betrayed the Republic at Washington."
"I am a Republican, but I honestly believe that, with the Ohio crowd in control, the best thing that could happen to the Republican party this fall would be the success of the Democrats."
"I have always contended that McKinley's backhanded did not reach far enough towards his neck to support his brain or will power."
"How long will the American people tolerate a state of affairs like that in the Philippines and China? How long will they suffer to be controlled by such enemies of the Republic as Hanna?"

HOW TO SETTLE THE MONEY QUESTION.

Senator Morgan, of Alabama, in a speech before the Jackson Democratic Association of Washington City, said:
"The only way to settle the financial question is to pay the public debt, and it would be very easy to do so by saving some of the wild expenditures we are now making. In the course of a few years we could save over \$100,000,000, and we should commence to-day in order to save the interest which the people are paying. The system created by the last Congress is designed to increase the national debt, and under that legislation the debt cannot and will not be paid, but will be increased from year to year. The payment of the debt would not underpin the national banks, but would force them to the old Jacksonian idea of a specie basis, and we would not be dependent for a circulating medium on Government bonds. When that is done the financial question will be settled, and settled right."
"God Almighty made both silver and gold for money only. They are not so useful as iron. We never travel on railroads made of these metals, nor do we have our utensils made therefrom. They are useful simply because the Creator made them for our use as money, but had He considered McKinley and the Republican party, He probably would have created but one. However, I can see no inclination of the Creator to decrease either. I am in favor of silver as a circulating medium because it is the money of the poor man, and while it is circulating it draws no interest. The paper dollar is constantly drawing interest, which some one is paying."

HERE'S IMPERIALISM UNMASKED.

In his speech at Chicago this week, Senator Beveridge said that our promise of independence to Cuba was an error. He advocated colonialism, and pointed to Great Britain's possessions of India as a glorious vindication of the course of the United States. He laid down the proposition that "every people who have become great have become colonizers or administrators;" that "through this colonization and administration their material and political greatness developed;" that their decline is coincident with their abandonment of their policy of possession and administration, or departure from the true principles thereof; and that "every progressive nation of Europe is seeking lands to colonize and governments to administer." And Mr. Beveridge thinks that the United States should do likewise.
"Here's your imperialism" remarks the Cincinnati Enquirer. "It is of no consequence what Mr. Beveridge says as an individual; for he has demonstrated himself to be a superficial man; but he is authorized by the administration to put forth pernicious sentiments. He proclaims that we must imitate the land-grabbing nations of Europe. He puts imperialism under the mild name of 'administration.' If his arguments in favor of extension of United States power and authority were sound why should we not commence with other people's lands on our own continent. Why do we not take Canada from Great Britain, instead of pursuing the British bullying policy of seizing the belongings of weak islanders? It would be more honorable, if there were honor about the proceeding at all, to take all of Mexico and Central America than to pounce upon the far-off Philippine Islands because Spain gave a quit-claim to them."
"Ours country has made greater and better progress than any nation of Europe without leaving the hemisphere over which it is the natural guardian. It has expanded without becoming involved in European affairs. It has become the greatest world power in civilization by successfully attending to business at home. It remains for the vulgar administration of Mark Hanna to make it a vassal state for Great Britain."

GERMANS SPEAK OUT.

Pointed Resolutions Give a Line on the Vote of Wisconsin.

Opposed to Imperialism and To McKinley's Policy of Territorial Expansion.

MILWAUKEE, Wis., September 28.—If the action of the Milwaukee Turner Society can be taken as an indication as to how the German vote is going there is a dark outlook for President McKinley. The society is composed of the leading Germans of the city, and last night it discussed at length the policy of the administration with reference to its new possessions.
The following resolutions were adopted, and they will have a wide effect on the German vote of the State, as the society is one of the most prominent organizations in the Northwest:
"We recognize in all nations alike the right to defend their liberty and to assert their independence by force of arms."
"We consider every war for the purpose of territorial expansion to be an act of brutal force, hostile to our American spirit of civilization and humanity."
"We condemn any and every attempt to spread the blessing of civilization at the point of the sword, because it is a hypocritical pretext merely, behind which there are lurking the greed and avarice of concentrated wealth."
"We protest against the policy of conquest pursued by our administration and against all expansion of the territory of the United States by force of arms."

The Omens Favor Bryan.

(Boston Post.)
The swing of popular sentiment is strongly toward Bryan. No man observant of what he sees about him can fail to recognize this fact. No amount of shouting for McKinley can obscure it. It is in the air. And seven weeks from to-day the vote will be cast that will determine the issue. Is it possible for the second term syndicate to halt the sweep of the pendulum in that time? Can all the forces which the Republican combination has at its call avail to check and turn the tide that is making for a change in dynasty?

Who Are the Trusts Supporting?

(Pittsburg Post.)
We find a thousand trusts established under the McKinley administration, without any attempt to seriously enforce the law against them. Whom are the trusts supporting for President? None of them is standing for Bryan. They are all engaged in fighting McKinley battles. That simple fact, known of all men, shows where the trusts expect aid and comfort through the Presidential election. McKinley will see that they come to no harm and that the tariff shall still be manipulated in their favor.

The Truth About New York.

(Albany Argus.)
Not since 1891 or 1892 has the situation in New York State been so promising, from a Democratic standpoint. What is called "Republican apathy" or "over-confidence" is in reality a disposition on the part of the Republican rank and file to rebuke Hannaism in the nation and Plattism in the State, of both of which the people are utterly weary. No Democratic effort should be spared to carry New York for Bryan and Stanchfield. The result can surely be obtained.

Miners' Short Working Year.

(New York World.)
Only 180 days labor were permitted in the coal trust's mines last year, according to the recent report of the Pennsylvania Bureau of Mines. This fact can not be too deeply impressed, because it is a key to the present situation not only in the coal region, but wherever monopoly has extended its withering power under the protection of tariffs, discriminations, complaint Legislatures and subservient Attorneys General.

LADIES' and MISSES' TRIMMED HATS

Our stock of French Pattern Hats is now complete. We are showing a greater variety of styles this season than ever before. Our success in this department convinces us that ready-to-wear millinery has come to stay. The hats we show are patterned after the very latest styles shown in the larger cities of the East, and it stands to reason that, being purchased in such large quantities as we buy them, they can be sold very much cheaper than you will find 'em elsewhere. You may have some prejudice against buying a ready-to-wear Trimmed Hat. Examine ours and we believe you'll change your sentiments. Prices \$1.75 to \$5.98.

REAL EXCELLENCE IN DRESS GOODS.

Critical and reliable judges have pronounced our Fall Dress Goods stock the best ever shown in this community. The semi-annual visits of our buyer to the Eastern markets make the above assertion appear merely as a reasonable expectation. The very latest fabric creations are displayed here. In blacks you'll find the new Satin Cloths, Soliels, Lizard Cloths, Clay Worsteds, Cheviots, Venetians, in prices from 69c. to \$2.25. And then, too, those Camel's Hair Golf Cloths, Plaids, Knickerbockers, Zibelines, &c., from 29c. to \$1.98. It's a stock worthy of your inspection. You need not buy.

NEW MERCERIZED UNDERSKIRTS.

We haven't the space to say much about them. Briefly, they're the best we have ever shown. Nearly all come with large accordion plaits. Prices from 39c. to \$4.98. Blacks and all colors.

Rev. D. P. Holt has not fully decided to accept his appointment as pastor of the M. E. Church at Dayton for ensuing year. He desires to go to a milder climate on account of the ill health of his wife.

Elder J. W. Bullock says he will visit the church at Bethany, near Springdale, on the first Sunday in October; Bethel, near Kennard, on the second; Mayslick on the third, and Mill Creek on the fourth, and then go home and vote the Democratic ticket, straight, in the enjoyment of a good conscience, both politically and religiously.

The Lexington trots commence Tuesday, Oct. 2, and run ten days. Every day there is a great stake trotted, and all the sensational horses of the East, North and West are entered and meet for the first time this year. Special trains from Boston, New York, Philadelphia, Chicago, Pittsburg and Cleveland, laden with prominent horsemen from all over the United States, will start for Lexington to-day, and from all quarters comes the prediction that Lexington will wind up the trotting season closing the nineteenth century with racing that has never been seen before. Half rates on all railroads have been secured. The finest horses, the best music and the largest crowd ever gathered together in Kentucky will be the attractions. Remember the dates, Oct. 2nd to 12th.

The Cincinnati Leaf Tobacco Warehouse Company, in its circular for the week, has the following:

"The essential features of the break market were quite similar to those characterizing the trade in the week on the auction floors of previous week.

"The offerings on Tuesday were light and mostly composed of the common and medium sorts of tobacco. Prices bid for them compared favorably with those paid for the same grades the previous week.

"Wednesday the offerings were more liberal in point of numbers, as well as in the distribution of character or grade of tobacco. The market for the day was strong, the bidding active and prompt, and, as a rule, the seller was well satisfied.

"Thursday the market showed less animation. Prices bid were hardly as full as they were for the same sorts offered before.

"The market for Friday was small. Prices current showed no change from those in vogue the preceding day."
